¹ Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC.

Description and Purpose of the Processing

Description of Processing
<p>The PRIIPs KID tool collects and analyses data from Packaged Retail and Insurance-based Investment Products (“PRIIPs”) Key Information Documents (“KIDs”) across Member States. PRIIPs KID data are collected from the websites of pre-selected insurance companies, placed in a central data repository, and used to provide analysis and aggregation at various levels. The tool allows for more efficient data collection, without additional burdens on industry or National Competent Authorities (“NCAs”), while improving the quality of product analysis, and enhancing market transparency for supervisors.</p> <p>EY has been engaged for the implementation of the project. The service provider has a Software as a Service agreement with EIOPA, on the basis of which it provides access to a web-based dashboard. The provider will give access to the tool and the dashboard to designated EIOPA staff members and NCA employees, who need to provide the following personal data for that purpose: name, surname and email address.</p>
